To Help You Choose the Electric Cleaner That's Best

So many claims have been made for various electric cleaners that you are puzzled, no doubt, to know which really is the best. To help you decide this really important matter, we are now demonstrating on our main floor—Housefurnishing Dept.—

THE HOOVER SUCTION SWEEPER

It is by far a more thorough cleaner than any other, because it is an electric carpet sweeper—as well as an electric cleaner. The patented electric-driven brush of the Hoover sweeps up all lint, hair, thread, etc., and shakes to the surface the grit and dust imbedded in the carpet, so that the suction gets all the dirt. We will gladly demonstrate these features—found only in "The Hoover." Come see the difference that the electric brush of the Hoover makes, or we will gladly arrange for a demonstration in your home.

Question of Excluding Negroes From Juries Before Highest Court.

The question whether the failure in southern states to select negroes for jury duty is denial to negroes accused of crimes of the equal protection of the law is raised in the Supreme Court of the United States.
A brief has been filed with the court by counsel for Robert Kitchen, a negro sentenced to be hanged in Washington county, Ga., for the murder of Henry Brantley, a white man, urging that the federal district court in southern Georgia erred in refusing to release Kitchen, after conviction, on a writ of habeas corpus.
He urged that the failure to have negroes on the grand and petit juries which passed on Kitchen's case deprived the trial court of jurisdiction.
